

ACCESS FOR ALL

MIDDLETON
PUBLIC LIBRARY

SPONSOR THE NEW
FAMILY TECH SPACE!

\$20,000

Access to technology is fundamental to the 21st century library. This new area on the library's main level offers an exciting opportunity to meet several critical needs: it provides the flexibility to host group tech programming in an open and welcoming space, and it serves as a multi-purpose computer area that caters to users of all ages.

The bustling new Family Tech Space brings public computer access up from the lower level and into the heart of the building. Your sponsorship will help build tech literacy in the Middleton community!

"Middleton PL has the best computer access in the Madison area, hands down; number of computers, no limits on time etc. Coming in and spending a couple hours on a computer without getting kicked out is very helpful when doing things like applying to jobs or working on my resume." - 2019 Survey Response

YOUR GIFT WILL PROVIDE:

- A collaborative tech space for patrons of all ages
- State-of-the-art technology and accessibility
- Naming rights and in-area recognition in the space
